Amendment

Dear Sir:

Considering the English interpretation of our original international patent application does not precisely state the real Chinese meaning of the inventor, because the Chinese applicant doesn't understand English at all and the hired translator is not very qualified, the applicant required to amend above-identified application under PCT Article 28 as follows:

Amendments to Specifications begin on page 2 of this paper.

Amendments to the Claims are reflected in the listing of claims which begins on page 6 of this paper.
